EDUCATION

Fontys University of Applied Sciences   Eindhoven, Netherlands
Bachelor of Science, ICT & Software Engineering   *Aug. 2019 – Jul. 2023*

Prague University of Economics and Business   Prague, Czech Republic
Business Administration & Entrepreneurial studies   *Aug. 2022 – Jan. 2023*

EXPERIENCE

Co-Founder & CTO   Nov. 2023 – Present
TalentSight Inc.   *Sofia, Bulgaria*

- Co-founded and built the product end to end, owning the overall architecture, UI, and core user experience.
- Built workflows for automating and coordinating background jobs and product processes using Supabase and Trigger.dev
- Worked closely with early users to shape features, improve onboarding, and iterate on the product.

Frontend Developer   Sep. 2023 – Nov. 2023
OfficeRnD   *Sofia, Bulgaria*

- Worked on large React codebases used in production by coworking and flexible workspace teams.

Software Engineer   Nov. 2020 – Jul. 2023
Axion BioSystems (formerly Cytosmart)   *Eindhoven, Netherlands*

- Developed rich visualizations for microscopic cell data, including static images, timelapse videos, and large datasets.
- Worked with multiple media formats (PNG, video streams) and GPU shaders to render and process scientific data.
- Built complex charts, tables, and interactive UI components to help users analyze experiments.

DEVELOPER RELATIONS & COMMUNITY

Ambassador   Apr. 2023 – Apr. 2024
Storyblok

- Created YouTube videos and blog posts focused on frontend workflows and Storyblok use cases.
- Helped developers in Discord and other community channels.

Ambassador   Jan. 2025 – Present
Supabase

- Organize Supabase meetups in Sofia and help grow the local developer community.

Ambassador   Nov. 2025 – Present
Cursor

- Organize meetups and help developers in community discussions.

SELECTED PROJECTS

a12v-stack

- Modern Nuxt 3 app boilerplate combining Vue, Nuxt, Shadcn, Pinia, TanStack Query, Zod, AI SDK, Supabase, and more.

upstash-search-ui-vue

- Vue port of Upstash Search UI with accessible and composable search components.

Infinite Alchemy

- A spin on the popular game LittleAlchemy, but you can combine unlimited elements with AI.
